

BOILER SAFETY INTERPRETATION/TECHNICAL LETTER  
BSI08

MEMORANDUM

TO: All Authorized Inspection Agencies and Supervisors

FROM: Fred P. Barton, Director/Chief Inspector  
Boiler Safety Program

DATE: March 2, 1999

SUBJECT: INSPECTION REPORT FORM NB-6

Currently this office mails out or E-mails NB-6s to you regarding owners/users whose Certificates of Inspection will expire in two (2) months. This was an attempt to assist you in planning activities for scheduling inspections and to provide you the latest information in our computer database.

Recently we have experienced complications in the generation of these forms and have decided to discontinue this process, effective April 30, 1999.

A zip disk consisting of all equipment our records show registered to your company will be provided for you on an annual basis to maintain our efforts to assist you in scheduling inspections.

If there are any questions, please contact this office at (804) 786-3169.

Thank you.
